Just what do they mean by “Kittywalk Systems” anyway?
The Systems in Kittywalk Systems refers to the inter-connectivity of the different outdoor pet components. They can go together in a variety of different configurations giving your indoor pets a wide variety of options to enjoy the great outdoors.

Pages 5, 10, 11, and 12 of this catalog all feature examples of the kinds of configurations possible with the wide variety of Kittywalk Systems components.

See even more possibilities in the diagrams below!
