Comparison Chart for Allergy Shampoos

Compare Shampoos for Allergies

| Product: | What it contains/does: | Especially good for: |
|---|---|---|
| **Hypo-Allergenic Shampoo** | Contains no fragrances and no artificial coloring – typical sources of skin irritation. | For cleansing super-sensitive, allergy-prone skin. |
| **Oatmeal Shampoo** | Soothing oatmeal helps moisturize dry skin and relieve the itch. | For gentle cleansing of dry, flaky, or irritated skin. Excellent for dogs with allergies. |
| **Itch Stop Shampoo** | Contains hydrocortisone and lidocaine, two powerful ingredients that help with itch and inflammation. Fragrance free to prevent reactions. | Pets suffering the itch and irritation of allergies or other conditions that cause the skin to be dry, flaky and itchy. |
| **ChlorhexiDerm Shampoo** | 2% chlorhexidine, recommended by veterinarians for cleansing skin. | Pets with bacterial infections of the skin. |
| **Soothing Shampoo** | 2% chlorhexidine is highly recommended by veterinarians for the safe, effective treatment of bacterial skin infections. Fragrance and dye free to prevent reactions. | Pets with bacterial skin infections. May also help in the management of yeast infections. |
| **Malaseb Shampoo** | 2% Miconazole Nitrate, an effective antifungal agent, and 2% chlorhexidine, recommended for bacterial infections. | Formulated to treat susceptible skin infections, including some bacterial and some fungal infections. |
