Drs. Foster & Smith Educational Staff

Product:	What it contains/does:	Especially good for:
 <u>Maximum Healthy Skin Kit</u> (for dogs)	<u>Omega-3 Gel Caps</u> and <u>Premium Plus® Healthy Skin Tabs</u> . See below for information on these excellent products.	Our top recommended choice for dealing with moderate to severe allergies. The Premium Plus® Healthy Skin Tabs work fast on allergy relief while the Omega-3 fatty acids are working on inflammatory processes.
 <u>Premium Plus™ Omega-3 Gel Caps</u> (for dogs)	Super-concentrated source of Omega-3 fatty acids, which have been shown to improve inflammatory conditions.	Moderate allergy supplement. Also excellent for skin conditions that cause itching, and other inflammatory conditions, including arthritis.
 <u>Premium Plus® Healthy Skin Tabs</u> (for dogs)	Combines the potent bioflavonoid and natural antihistamine quercetin with the antioxidants Vitamin C and grape seed extract. Also contains Biotin and beneficial bacteria <i>Lactobacillus</i> to maintain your pet's healthy skin and coat.	Designed for dogs that need increased support of the skin's immune system seasonally or year-round.
 <u>Biotin</u> (for dogs & cats)	Biotin is a B vitamin that reportedly increases the efficacy of fatty acids. On its own, biotin is necessary for growth, muscle formation, and the repair of skin and haircoat. Commonly used in combination with fatty acids to enhance their role in inflammatory conditions.	Best for use with oral products containing fatty acids (*starred items) to control allergy symptoms.

**Vitacoat®
Plus***

Omega-6 fatty acids derived from safflower and soybean oil are the key ingredients. Also contains antioxidant nutrients Vitamins A, E, zinc, as well as Biotin.

Promote the overall health of your pet's haircoat. Helps keep your pet's skin and coat in peak condition,

**Vitacaps Soft
Chewables for
Dogs.**
Available in
liquid
& capsules.

Contains a special blend with a preferred ratio of Omega-3 to Omega-6 fatty acids, Vitamins C and E, zinc, and Beta-carotene.

Antioxidant nutrients support a healthy immune response, right down to the skin cells.

**Brewers
Yeast***
(for dogs and
cats)

Brewers yeast is a natural source of B vitamins. The Drs. Foster & Smith brand also contains natural fatty acids, which are commonly used in cases of inflammation.

A good supplement for itch control.

***= Contains fatty acids**
