

Simple Guide to Pond & Water Feature Selection

Drs. Foster & Smith Educational Staff

Dreaming of a Backyard Water Feature? Consider a Kit!

From simple patio fountains to lush pond gardens with cascading waterfalls, it's never been easier to animate your back yard with a water feature. They instantly add drama, sound, and wildlife to your landscaping - not to mention a relaxing place to enjoy summer evenings alone or with friends.

Want to add a water feature in less than a week and save money while you're at it? Consider a [kit](#) - they're basically "a pond in a box" with all the matching components you'll need to build a beautiful and healthy pond system. You'll discover there's a kit now for almost any size water feature you can imagine:

Barrels of Fun - container gardens for your deck, patio, or even indoors!

Little Giant Classical Fountains

Easy-to-assemble, self-contained water feature for garden or patios! These hand-finished water fountains boast realistic colors and accents brimming with charm. Planter models feature an integrated planter with an anti-clog design to prevent soil or debris from damaging included submersible pump. Choose from **Whiskey Barrel Fountain**, **Copper Kettle Fountain with Planter**, or **Cottage Cauldron Fountain with Planter**.

Waterfalls add tranquility to even small spaces

Bird Pond Kit with 3 Tier Cascade

Create a stunning and simple ground level birdbath in as little as two hours! Constructs a 3' x 4' pond 2"-6" deep, plus 3-1/2' cascade on a 1' grade. Contains liner, ABS Three-Tier Cascade, 10' hose, and 100 gph pump. Landscape with rocks and plants to your taste.
