

Top 5 Reasons to Select Your Bird Cage From Us

Drs. Foster & Smith Educational Staff

what's the
DOCTORS
FOSTER *and* SMITH
advantage?

A bird cage is the most important purchase you'll make once you decide to become a bird owner. A cage is your pet's new home, the place he will spend a large part of his time. It is a considerable investment, and its design,

size and quality can have a powerful affect on your bird's behavior and happiness. Though there are many places you could buy your cage, few give you the selection, service, pricing, and guarantee you deserve. We hope you'll consider Drs. Foster & Smith when you make this important decision.

Top five reasons to help you select a bird cage from us:

- 1. Each cage is selected by veterinarians with your bird's comfort, safety, and happiness in mind.**
We offer cages from leading manufacturers - names you can trust - like [Prevue](#), [Caitec](#), and [more](#). And, we ship them right to your door in a timely manner.
- 2. We back every cage with our 100% satisfaction guarantee.** If you are not 100% satisfied with your

purchase, you may return it for a refund, an exchange, or credit of the full product cost.

- 3. Extensive style and color selection.** Choose from playtops, dometops, aviaries, tabletop cages, and sleep-only cages. You're sure to find a style that best fits the activity level and personality of your bird. Plus, we offer many colors to complement your home. From vintage to modern, from powder-coated to stainless steel, you can find a cage that's just right for both you and your bird.

- 4. We help you find the right size.** Every bird cage product page online features a link to a cage size guide, which helps you determine which cage bar spacing and perch diameter are most appropriate for your bird. It also gives you suggestions for other factors to consider, like adult wingspan.
- 5. Easy-to-understand assembly instructions included.** Many of our models can be assembled with minimal or no tools. And, if you should lose your directions, no problem. We've got a printable version for almost every model online.

[Select Series Cages](#)

Frameless wire side panels reduce weight and seams that can trap harmful mold or bacteria.

[Model F030 Flight Cage](#)

A roomy and economical flight cage with lightweight construction and casters for easy transport.
