

Hoof Care Essentials Comparison

Drs. Foster & Smith Educational Staff

Topical hoof care products can be helpful tools in keeping your horse's hooves healthy. Hoof topicals run the gamut from antibacterials to strengtheners to moisturizers to barriers from the elements. What your horse needs will depend on where he spends most of his time, whether he is in muddy soil, in dry sand, or on rough terrain. Current health is also a factor, whether the hooves are dry and brittle, crumbly, or if they just need some fortification.

Product	Form	Use	Benefits						Main Ingredient(s)
