## Lengthen the Life of Bird Toys

Drs. Foster & Smith Educational Staff

Make her toys last with these tips:

**PREPLACE DESTROYED TOY PARTS** such as <u>cotton rope</u>, <u>toy pieces</u>, or sisal.

also for the sake of your

pocketbook.

**CLEAN TOYS** with <u>Poop-Off</u> to keep them in sanitary condition.

**PROTATE TOYS** regularly – at least weekly to give them a break from wear and tear and to keep your bird interested in each new addition.

Also remember to choose the right size toys. Understand that macaws can, in seconds, destroy toys made for small birds.
