TREATS: Practice variety

Your dog's treat regimen should have plenty of variety. That's because your pet benefits a number of ways from different kinds of treats:

[Dental treats](#) massage gums and clean teeth

[Training treats](#) are small and quickly consumed so your dog does not become distracted from training tasks

[Meaty treats](#) satisfy your pet's carnivorous cravings

[All-natural treats](#) are ideal for dogs with allergies or times when you need to reduce calories

[Soft treats](#) are great for the puppy stage or for the senior stage
