

Aquariums as Part of Your Lifestyle

Drs. Foster & Smith Educational Staff

Aquariums are a beautiful addition to any home. But beyond their aesthetic value, aquariums have many unique qualities that enrich the life of anyone involved in this engaging hobby. The aquarium hobby integrates well with today's hectic lifestyle and provides many benefits. Discover why so many people find having an aquarium (or many) a meaningful and worthwhile endeavor. Some of the benefits of aquariums include:

Stress reduction

[Aquariums](#) are an anchoring or stabilizing feature that counterbalances the hectic and uncertain events of your life. Day to day craziness can catch up with you, but having something stable, concrete, and serene to contrast the chaos can provide a beneficial balance. Simply seeing aquarium [plants](#) sway back and forth, watching [fish](#) glide effortlessly through the smooth water, or hearing the gentle trickle of water from the [filter](#) can be very soothing and relaxing. As you sit and enjoy your aquarium, you will be amazed how the stress of the day's activities vacates your mind and body.

Distinct focal point

Not only is an aquarium a great way to bring peaceful retreat to your home, it also adds an unexpected focal point to any room. Are you tired of guests seeing a big, bulky TV when they first walk into a room? Re-direct their attention with a bright, beautiful aquarium. Place the aquarium on a decorative, [furniture quality stand](#) to make a grand statement. An attractive aquarium serves as a [stunning showpiece](#) you can show off to guests, like you would an elegant art piece or dazzling décor. Add your favorite fanciful [decorations](#) and bold, brightly colored fish to bring beauty to any room and to

captivate the attention of anyone who enters.

Entertainment

An aquarium filled with fish, intriguing decorations or lush plants can provide endless entertainment for family and friends. Even the simple pleasure of [feeding fish](#) is an exciting event enjoyed by children of all ages. They will be mesmerized as they watch colorful fish play and swim. Encourage children to pick out names for the fish or read books about the plants, fish and other aquarium inhabitants to add an entertaining approach to education.

Enliven home environment

Invigorate your home with [live plants, fish, and other live aquarium inhabitants](#). Bringing a "living" element into your home is a great way to vitalize an otherwise sterile, urban setting. Many housing situations may not be suitable to properly accommodate pets such as dogs. Hectic schedules also exclude the option of having conventional pets. Aquariums are the perfect solution. When you want to add character and life to your space, consider bringing a bit of the outdoors in with a living, thriving aquarium.

Sense of accomplishment

There's a [multitude of tasks](#) that go into making sure your aquarium stays clean, vibrant and healthy. Completing those tasks successfully and seeing your aquarium inhabitants grow and thrive over time can nurture a satisfying sense of accomplishment.

<p>Question: I want my aquarium to look attractive in my living room, but I don't want to spend a ton of money. What can I do?</p>	<p>Answer: Aquarium decorations are the easiest and most cost effective way to enhance any aquarium. Choose from a wide variety of artificial plants and decorations to create a magnificent aquarium with minimum effort.</p>
