

Bird Cage Cleaning Tips

Drs. Foster & Smith Educational Staff

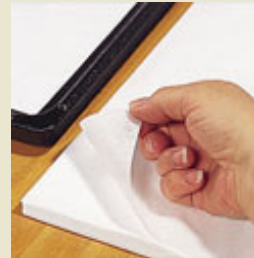

A clean house pleases your feathered friend just as neatness and sanitation appeal to you. Armed with a variety of products that effectively minimize messes and simplify tough clean-up jobs, you can help to ensure a tidy, healthy environment for your bird.

MANAGE the mess

The [Jumbo Fountain Feeder](#), [Bullet Waterer](#), and [Glass 6" Feeder/Waterer](#) are designed to minimize mealtime mess by catching what he discards.

Cages outfitted with either the [Seed Catcher](#) or the [Universal Cage Seed Guard](#) trap the seeds and spills that otherwise land on your floor.

[Big Cage Liners](#) help reduce the need for scrubbing and cleaning.

MAINTAIN the cage

Attack dried-on debris and hard-to-reach areas with [Poop-Off Spray or Wipes](#).

Use [Natural Chemistry Healthy Habitat](#) all natural enzyme cleaner and deodorizer to easily eliminate odors and stains from organic animal and food waste.

When cleaning, take the proper steps to safeguard your bird, and watch for broken toys and other hazardous conditions within the cage. With the proper tools and a small investment of your time, you can keep your bird's world squeaky-clean and beautiful, while ultimately promoting his continued health and happiness.
