

Ramps & Steps Comparison Chart

Drs. Foster & Smith Educational Staff

Use of dog ramps or pet steps can help your dog when he has difficulty jumping into a vehicle or onto the furniture. When selecting the pet ramp or steps that best fits your situation, consider where it will be used, how high it will need to reach, and whether you want it to be portable. You may also have a preference as to the type of material used in its construction. Clicking on a product will take you to the product page for more information.
