

## Compare Soothing Topicals & Itch Control Products

*Drs. Foster & Smith Educational Staff*

Product:	What it contains/does:	Especially good for:
 <p><b><u>Itch Stop Series</u></b> (for dogs, cats, &amp; horses)</p>	<p>Contains 0.05% hydrocortisone, a mild topical steroid, which will stop the itch temporarily. Available in spray, shampoo, lotion, salve, and pads.</p>	<p>For allergies manifested in the skin, hydrocortisone has been shown effective in stopping incessant itching. Commonly used as a spray, salve, or liquid-soaked pad between toes to stop constant licking.</p>
 <p><b><u>Drs. Foster &amp; Smith Septi-Soothe™ Treatments</u></b> (for dogs)</p>	<p>Water-based soothing formula which contains antibacterial chlorhexidine. For raw, scratched areas, such as hot spots. Available in mist, salve, or pads.</p>	<p>If your dog has been diagnosed with a hot spot, follow your veterinarian's instructions. Used to soothe the irritated area while chlorhexidine controls secondary bacterial infections.</p>
 <p><b><u>Herbal Skin and Coat Rub</u></b> (for dogs)</p>	<p>All-herbal rub for itchy, irritated skin. Contains pennyroyal and comfrey oils.</p>	<p>For the owner that wants an all-natural alternative to other anti-itch products. Works well on some dogs.</p>
