Healthy Coat

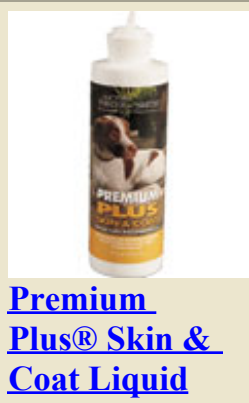

THE BEST KENNEL
 THE BEST KENNEL
 THE BEST KENNEL

Many pets do not receive the required nutrition to maintain healthy skin and haircoat, or they have higher needs for certain nutrients than the average dog. [Skin and coat supplements](#) provide the cells of the skin the necessary nutrients to remain healthy. Many skin and coat supplements contain fatty acids, vitamins, and minerals to help support a beautiful, shiny coat and healthy, supple skin.

The following table can help you determine which skin/coat supplement would be best for your pet:

Product	Maximum Support of Normal Skin Comfort	Moderate Support of Normal Skin Comfort	Mild Support of Normal Skin Comfort	Supports Supple Skin, Shiny Haircoat	Comments
