

Kristen's Easy Duck Soup Recipe

Drs. Foster & Smith Educational Staff

This is for those of you who don't have decent food processors, or who would like an easy to make alternative to real chicken based duck soup. It's great for putting weight on sick ferrets, and works well as a recovery soup.

What you will need:

- 2 cans of Science Diet A/D (available only at your veterinarian's office)
- 3 jars of Gerber's Chicken & Chicken Gravy Baby Food
- 2 Scoops of [Nupro](#)
- 2 baby food jars of water
- 1 big squirt of [FerreTone](#) (if your ferrets like it)
- 3 tsp. of [Nutri-Cal](#), [FerretVite](#), or some other high calorie supplement (don't use if your ferret has Insulinoma) - optional

What to do:

Combine A/D, Baby food, water, Nupro, and Nutri-Cal/FerretVite in a blender, and blend until smooth. Add FerreTone, and blend again. Empty into ice cube tray or container (place in freezer or fridge respectively). This will make about enough for 2 - 3 days if you have multiple ferrets, and probably about a week if you have 1 ferret. I find my ferrets like it best heated to room temperature before serving.
