

## Dog Toys Overview

Drs. Foster & Smith Educational Staff

Picking the right toy for your dog isn't always easy. It may take a little trial and error before you find that perfect toy your dog just won't leave alone.

Below we've tried to summarize the different kinds of toys to help you find "the one."

### Plush dog toys

Made of fleece, plush fabric; retains dog's scent for extended play; some have squeakers; great for fetch, other dogs just like to carry [soft or plush toys](#) around and snuggle.

- [Skinneez Stuffed Free Toys](#)
- [Squeak N Grunters](#)
- [KONG Plush Soft Toys](#)
- [Squeaker Mats Dog Toys](#)

### Rubber dog toys

Great jaw and mouth exercise for dogs that like to chew; keeps them occupied for hours; fun for fetch or non-interactive play; great for aggressive chewers because they are so durable. Some are hollow so you can put treats inside of them for extra fun.

- [Everlasting Treat Ball](#)
- [KONG Toys](#)
- [Dura-Squeaks Dog Toys](#)

### Vinyl dog toys

Easily compressed by the bite of just about any-sized dog; usually have squeakers that almost all dogs enjoy; great for fetch.

- [Tricky Treat Ball](#)
- [Soft-Flex Bumpy Balls](#)
- [Gripper Balls](#)

### **Rope dog toys**

Great for fetch, tug games, and chewing. Good for teeth and gums, they often last a long time.

- [Flossy Chews Rope Dog Bones](#)
- [Braidys Mammoth Monkey Fist Bar Dog Toy](#)
- [Dogit Striped Cotton Rope Toys](#)
- [Nuts for Knots Squeaky Rope](#)

### **Rawhide chews and bones**

Entertain your dog and keep him occupied with chew toys and rawhide. Chewing rawhide removes plaque from the dog's teeth and keeps them cleaner while the dog has a great time chewing; come in many flavors, sizes and shapes - from [bones](#) to [chews](#).

- [Drs. Foster and Smith Super Heavyweight Rawhide Dog Bones](#)
- [Twizzle Stix](#)
- [Drs. Foster and Smith Premium Extra-Thick Peanut Butter Rawhide Chips](#)
- [Quado Bones Dog Treats](#)

### **Bone-Hard Toys & Chews**

Great for dogs who love to chew; good for the teeth since they remove plaque and are nonabrasive; relieve boredom; come in various flavors and sizes. [Nylabones](#) are a long-lasting chew toy, as well as other bone-hard chew toys.

- [Busy Buddy Bouncy Bone](#)
- [Nylabone® Tough Toys](#)
- [Marrow Chews Durable Interactive Dog Bones](#)

Many dogs are surprisingly finicky about the size, shape, or feel of the toys they'll play with. If your dog doesn't play with the soft plush toy you give him, try a rubber or bone-hard toy. Be patient and don't give up - you'll find the toy type your pet loves to play with.
