

# Small Aquariums: The Perfect Gift to Beautify the Home or Office

*Drs. Foster & Smith Educational Staff*

Have you considered bringing the beauty and therapeutic benefits of an aquarium to your home or office? Perhaps you decided against it thinking, "I don't have room or time to set up an aquarium... especially during the holidays." Thanks to today's small desktop aquariums, adding the colorful and wonderful beauty of tropical fish is easier than ever.

## Glass bowls are a thing of the past

Technological advances have brought about lightweight acrylic aquariums that dramatically redefine the concept of small aquariums. Sophisticated, streamlined, and designed for convenient set up, many desktop aquariums now feature an all-inclusive hood with built-in filtration and lighting. These integrated systems save time by simplifying equipment selection and fish enjoy much healthier water conditions.

## Fun new pets and learning opportunities for everyone

A new desktop aquarium makes a perfect gift for children or budding hobbyists of any age. Not only are they beautiful to look at, aquariums are fun, educational tools that parents and children can enjoy together. The excitement generated over an aquarium spurs eager minds to share what they learned with family members and friends.

## Optimal office enhancement

More workplaces are realizing and enjoying the benefits of aquariums. Desktop aquariums offer great rewards, yet require minimal effort to set up and maintain. These benefits range from stress relief to the beautification and revitalization of any workspace.

The soothing sound of water and the calming effect of colorful fish gliding effortlessly through the water help lower blood pressure and reduce stress levels. Lower stress levels translate to greater creativity and higher productivity. Furthermore, a beautifully set up desktop aquarium is an excellent "ice-breaker" and conversation piece, sure to spark the interest of any business client. These and other benefits make desktop aquariums a wise investment for any office environment.

## Deck your halls with a bright, dazzling new aquarium

Brighten your holiday season (and the rest of the year) with a fun, attractive, educational aquarium. Whether you know aquarium veterans looking to expand their collection, or "first-timers," a small home or office aquarium is a great gift that brings much-needed color, relaxation, and fun.

## Here are a few great starter aquariums:
